Why Not Get Rid of Catarrh?

Here are some symptoms of catarrh: If you have any of them, get rid of them while there is yet time: Is your throat raw? Do you sneeze often? Is your breath foul? Are your eyes watery? Do you take cold easily? Is your nose stopped up? Do you have to spit often? Do crusting form in your nose? Are you losing your sense of smell? Do you blow your nose a great deal? Does your mouth taste bad morning? Do you have to clear your throat on rising, or have a discharge from the nose? Does mucus drop in back of the throat? Have you ringing noises in the ears?

HYOMEI (pronounce it High-o-mey) is guaranteed to cure catarrh, coughs, colds, sore throat, bronchitis, asthma and croup, or money back. Just breathe it in. Complete outfit, including hard rubber inhaler, \$1.00. BADGON'S PHARMACY and drug lists everywhere sell HYOMEI. If you already own an inhaler, you can buy an extra bottle of HYOMEI for only 50 cents. Remember that—

The first charge against Griffin was for being unlawfully drunk. He pleaded guilty and was fined \$5 or five days. The second charge was for carrying concealed weapons. To this charge Griffin pleaded not guilty. When the revolver found by the arresting officer on Griffin's person was produced in court the prisoner contended that he knew nothing about the weapon and that he must have purchased the weapon while too drunk to know what he was doing. The judge added another \$5 to the man's assessment for carrying concealed weapons and the gun will also be kept by the city. Griffin gave his home as Salt Lake City and said that he was employed with the Oregon Short Line.

NEW LAKES WEST OF DAVIS INLET

New York, Sept. 12.—Prof. Donald B. MacMillan of Worcester academy, who accompanied Commander Peary on his trip to the North Pole, sent word to friends here today that his party, which explored the land west of Davis Inlet, had been successful in a dispatch from Labrador, dated August 30, Prof. MacMillan says:

"It might interest you to know that our trip has been successful. Our plan was to strike due west from Davis Inlet across country through an unexplored section until we came to the George River, hoping en route to discover many unknown lakes and the regular trail of these people to the coast."

"We did all that we planned and more. Took nights for longitude and latitude at various points on trip, passed through three large lakes, the largest, Mission, about 25 miles, and came to the George, 150 miles from the coast. We passed one night in a lodge with the Indians at Chene-Tee-Wis on banks of the river."

RAILROAD STOCK ADVANCE ON SMALL BUYING

New York, Sept. 12.—Prices of stocks today advanced slightly on languid dealings. Union Pacific, selling ex-dividend, rose 1-5-8 and Reading as much and Canadian Pacific, Chicago Great Western, pfd., and Republic Steel 1. Atchison and St. Paul's decline a fraction lower than Saturday's closing.

The tone of the market became stronger and business was larger. Professional operators bought stocks moderately. The resisting power of the market to unfavorable factors last week was a mark. Railroad traffic was considered as good news. Rock Island, pfd., rose 1-1-2 and common, and St. Paul, Northern Pacific and Amalgamated Copper 1. Hocking Coal fell to 23 1/2 a new record. Bonds were steady.

HOLDUP OCCURS ALMOST IN TOWN OF CANANEA

El Paso, Sept. 12.—Details reached here today of the robbery Saturday, near Cananea, Sonora, Mexico, of Cashier Paul Probert, and Supt. A. N. Heuser, of the Calumet & Sonora Mining company. The two men were on their way to the mine with \$2,450 with which to pay off the miners, when two bandits stopped them on the road, forced the officers off their horses, took their money and the horses, and galloped into the mountains. Eight suspects are now in jail. The holdup occurred almost in the town of Cananea.

TAFT REFUSES TO PARDON THEM

New York, Sept. 12.—President Taft, it was learned today, has denied application for a pardon for Edward Boyle, John Coyle, Patrick T. Hennessy and Thomas Kehoe, the sugar welders who were sentenced along with Oliver Spitzer, the dock superintendent, for frauds on the Williamsburg docks of the sugar trust. Spitzer was pardoned, and gave testimony at a subsequent trial of Heke and Gerbracht, who were convicted.

GOOD ROADS AND ROUGH ROADS

The people of Huntsville had previously petitioned the commissioners to make needed repairs on a road leading southward from Huntsville to the Morgan county line, and the commissioners today decided that they, accompanied by Road Commissioner Childs, will inspect the road some day during the present week. After the inspection trip the commissioners will be prepared to answer the petition.

Sheriff Wilson was requested to withdraw the name of Deputy Sheriff A. H. Garner of Huntsville from the payroll, it being thought by the commissioners that Mr. Garner's services are no longer required. During the campaign against Hoken Olsen, the Huntsville saloonist, it was considered necessary to have a deputy sheriff at Huntsville. It appears that Hoken is more docile now and the deputy is no longer needed.

Road Commissioner Childs was instructed to proceed to roll the boulevard in Ogden canyon and place it in good condition for the good roads convention demonstration on Monday, September 24. He also is directed to give attention to the repairing of the county road in the North Ogden district.

This action is taken in accordance with urgent requests from the automobilists of the good roads movement, they contending, at their meeting Friday night that while the roads were in fairly good condition, they were hardly fit over which to haul the delegates to the good roads convention. Some of the automobilists stated that they would not care to venture over the canyon road with their machines with the road in the present condition, and others said the North Ogden road is altogether "too jolly" for men who are advocates of real good roads.

The commissioners, by unanimous action, eliminated from the tax rolls the assessments on the Catholic church, the Episcopal and Lutheran and the Sixth Ward meeting house. It was stated that these assessments had been overlooked by the county board of equalization.

CHANCE EXPECTS DOWN ATHLETICS

(By George Rice.) Chicago, Sept. 12.—I do not consider the Philadelphia Athletics a much stronger combination than the Detroit Tigers were when we faced them," said Manager Frank Chance of the Chicago Cubs yesterday. The Cubs have 37 more games to play and are out in front by 11 games. Chance had expected getting the present Cardinals, but found his team had leg still sore and did not perform.

Archer has a slight attack of la grippe, so somebody else may have to dig up to do first base duty. St. Louis is being handled by the Athletics in the present Philadelphia outfield is not as good as the Athletics are a weak team by any means, for the Tigers were not. There was never a much stronger combination in the outfield than Cobb, Crawford and McInnis. The present Philadelphia outfield is not as good as the Athletics are the Tigers sent against us.

"The Tiger infield was not a weak combination at all, and it would easily hold its own with the present infield of the Athletics," Donnan and Mullin were as strong pitchers as any two Athletics have at the present time. The Athletics have four pitchers who should be hard to beat in Phil, Coombs, Bender and Morgan, while the Tigers had really but the two men to depend on.

Cubs Are Better Than Ever. "I have heard the comment made that the Cubs are a weaker team now than they were when we played our last world's series. I do not believe it. In fact I think that the present Chicago team is stronger than the team of 1905, providing we are all in the game. With all of the regulars on deck, we will show up stronger this year than ever before, provided our pitchers are right."

"I do not think that any of our pitchers have gone back. Brown has not, and Reulbach is as good right now as he ever was in his life. If Overall was right, we would be stronger on the slab than ever, for Reulbach is pitching better than he has ever pitched and Cole is a big strength to the pitching staff of the team. Overall is not right, of course, but if he were, he would make the Cubs' staff a stronger combination than we ever had for any championship series."

"We will not claim the world's championship before we have a right to it, but I don't think the Cubs have any need to consider the Athletics a harder foe than the Tigers were. If our pitching staff does not meet with further injuries, we will be just as strong as the Athletics will be in our pitching department."

"The only place where the Athletics will have anything on us is the pitching department," says Johnny Meyer, "if they have it. I close. We have been weaker in our twirling staff this season than we have been in former years, because of injuries, but at that we are all right."

ANOTHER LINE PROJECTED TO REACH ST. GEORGE

The Richfield Reaper has an interesting article on the plans of Messrs. Pope, Easter, Reulbach and Geon for building a railroad to St. George, and states that the gentlemen have returned from Dixie full of enthusiasm over the project. J. M. Lauritzen and W. S. Rust, former residents of Richfield, went to Dixie about a year ago in the interest of a reclamation project, but at once saw that a railroad was also necessary. They interested Messrs. Geon, Pope and Easter, three eastern men, and the five have been busily engaged in the project for a year past.

MRS. W. D. SILVEY DIES IN MIDVALE

Mrs. W. D. Silvey, wife of the former captain of police of Ogden, died this morning at 8:15 at the family residence at Midvale, Salt Lake county. Her death was caused by stomach trouble after an illness of six weeks. Mrs. Silvey was well known in Ogden and leaves many friends in this city. Mr. Silvey is at present a deputy marshal at Midvale. Mrs. Silvey will be buried in the Ogden City cemetery, but the funeral arrangements have not been completed.

IN POLICE COURT

W. H. McGuire forfeited \$5 bail by not appearing to a charge of being unlawfully drunk. McGuire was arrested Saturday. Charles J. Patagon, another man of bibulous habits, let \$5 go into the city treasury by not being present when his name was called by the police clerk.

Read Commissioner Childs was instructed to proceed to roll the boulevard in Ogden canyon and place it in good condition for the good roads convention demonstration on Monday, September 24. He also is directed to give attention to the repairing of the county road in the North Ogden district.

John Hassel, charged with disturbing the peace, was not arraigned this morning as the officers desire to secure further information against the man before bringing his case into court.

James Cook pleaded not guilty to the charge of cruelty to animals and his case was continued. It is charged that Cook left a cat standing on a street for more than five hours without food or water.

P. F. Ward told the court that he was not drunk when arrested near the Union depot, and his case was continued. Ward has the appearance of having been in a fight with several men at one time. His left eye is badly swollen and discolored, and there are numerous other bruises about his face. He claims that he was knocked down and robbed, but he was not permitted to tell his story. He will be given a chance to express himself when his case comes up for hearing.

ROOSEVELT IN NEW YORK FIGHT

New York, Sept. 12.—In order to ascertain the exact status of the campaign which the progressives are waging against the old guard for control of the Republican state convention, Theodore Roosevelt summoned a number of leaders to Oyster Bay today for a conference.

Primaries are to be held in New York, Buffalo and Rochester tomorrow. Mr. Roosevelt hoped to ascertain just what inroads the old guard leaders might be able to make into the New York county delegation and how much progressive support might be expected from Kings county.

His first move to disrupt the situation included County Chairman Lloyd C. Griscom, who has been directing the Roosevelt forces during the campaign. Mr. Roosevelt hoped to ascertain just what inroads the old guard leaders might be able to make into the New York county delegation and how much progressive support might be expected from Kings county.

Probably one of the bitterest Roosevelt fights in Manhattan tomorrow will be carried on in the fifth district where Assemblyman William M. Bennett is a candidate not only for re-election as district leader, but for the congressional nomination to succeed J. Van Olcott. The district committee has endorsed the ticket of the Olcott faction and Chairman Griscom, replying to an inquiry today from State Committee member Harry W. Mack, stated that because of the district's endorsement of the Olcott ticket was to be considered as backed by the organization.

DIAZ SPENDS A BUSY DAY

MEXICO CITY, Sept. 11.—Today proved to be a strenuous and busy one for the chief executive of Mexico, who attended the dedication of two monuments, received four foreign envoys to the centennial celebration and entertained sixty persons at a banquet at the palace tonight.

The most interesting feature of today's program to the American residents was the dedication of the site where a monument will be erected by Americans in this republic and presented to the Mexican government. President Diaz and members of his cabinet were present. Ambassador Henry Lane Wilson made the presentation address. In replying President Diaz said his people deeply appreciated the gift and the spirit of friendship that prompted it.

Later in the day the chief executive attended the exercises of placing the first stone in the pasteur monument, a gift of the French colony, to the people of Mexico.

TEXAS ASKS FOR UTAH APPLES

The peach season is practically over, although a few scattered shipments will be made this week. The Pioneer Fruit company has started its apple campaign and already has looked orders for several hundred cars of winos and jobbers.

It is believed that the apple crop will be one of the largest in the history of the state. Bear River Valley alone is estimated to yield 400 cars and reports from other parts of the state are equally as encouraging. The scarcity of the fruit in many quarters of the country will make the prices good and at present apples are selling at \$1.50 per bushel f. o. b. This price will be somewhat reduced when the big shipments of the fruit begin, but the growers are certain of very satisfactory figures.

The Pioneer Fruit company is receiving a great many orders from Texas, an order for 25 cars being received from the state in one day. The heavy movement of apples out of the state will begin next Monday.

NINE LABORERS KILLED OUTRIGHT

NEW YORK, Sept. 11.—At least nine laborers were killed outright today and ten others were injured in the collapse of an overhanging shoulder of rock from above the western mouth of the Erie tunnel, which connects the Erie terminal in Jersey City with the westward division.

Of the known dead four were Americans, three were unidentified, and two were foreigners.

For several years the Erie has been working at the gigantic task of carving out an open cut for its passenger trains through the solid rock of Bergen hill, which is some 300 feet high in spots. The cut was opened for travel not long ago, but there still remains the task of hewing a common portal for the old tunnel and the new cut out of the ledge where they will meet west of the boulevard. It was there that the fall came today.

A wall of rock from four to ten feet thick still separates the two sets of tracks and eight sets of drills were pounding away at it today. Their peevishness a strip of rock forty feet wide and twenty feet high, it peeled off like wall paper and toppled into the spot where the men were tearing down brick work at the mouth of the old tunnel. Instantly they were buried under a mass of debris.

SALT LAKE WILL TEST ALL MILK

SALT LAKE, Sept. 11.—Salt Lake City's milk supply will soon have to undergo a bacteriological test, if present plans carry. The city food inspector and the health commissioner have been in conference with the mayor several times recently concerning the establishment of a bacteriological laboratory and the employment of a bacteriologist and the mayor approves of the plan. The city already has almost enough apparatus to establish a laboratory in the city health board office and his leaves the completion of a bacteriological test, the largest problem. The council recently gave the health commissioner authority to employ more inspectors and one of these inspectors will be employed with a view to his ability to make the bacteriological tests of milk and will devote the rest of his time to culture tests and regular inspector work.

The establishment of a bacteriological laboratory for the testing of milk means much to the general public health of the city. True, the city food inspector and the health commissioner have made wonderful improvement in the general food supply of the city, but in reality much of this labor has gone only to the commercial side of the problem, ending to protect the people's purse as well as their health. The establishment of the bacteriological laboratory and the employment of a bacteriologist go directly to the public health and put Salt Lake on a plane with other large cities of the country.

Will Test Milk.

Bacteriological tests of milk already are provided for in both the state laws and the city ordinances, so there will be nothing in the way of the laboratory and its working legally. The maximum number of bacteria to a cubic centimeter of milk is 500,000 under both state law and city ordinance. The government standard is 200,000 and doubtless the number here will be reduced after awhile. Milk with more than 500,000 of bacteria to the cubic centimeter will be held to be adulterated and denatured or destroyed, the milk condemned and the name of the dealer given to the public.

It is likely that the new inspector will also be employed to make vital tests for typhoid fever. This test is for the purpose of confirming diagnosis.

ENGAGEMENT.

Mrs. and Mrs. H. H. Goddard announce the engagement of their daughter, Clara, to Dr. Alonzo A. Browning of Park City. The prospective bridegroom is the son of W. V. Browning of this city. The marriage will take place during the latter part of next month and will be solemnized in the Salt Lake temple.

AT THE OAKS.

Mrs. A. D. Dowdally entertained at the Oaks an auto party of six in honor of her daughter, Miss Mabel Knudsen of Rock Springs, who will return to her home next Thursday.

The elaborate trout dinner was charmingly served and proved to be one of the most enjoyable events of the fall season.

HISTORICAL SOCIETY.

Mrs. O. J. Stilwell charmingly entertained the Historical society at the Stilwell cottage, Ogden canyon, Saturday afternoon.

Tasteful decorations made the cottage beautiful, and a delightful luncheon followed the club program. Many interesting topics will come up before the club this season and unusually pleasant gatherings are anticipated.

den avenue, in honor of Mary B. Batchelor and William R. Eckhardt, who were married in the Salt Lake temple Wednesday morning. The bride was charmingly gowned in a creation of white lace over white silk and the groom was in full evening dress.

The home was beautifully decorated for the occasion, a huge umbrella of lavender chrysanthemums with streamers of lavender ribbon extending to the corners of the big parlor was suspended from the ceiling. In the sitting room the same arrangement, with a combination of lavender and white prevailed and in the dining room, pink and white chrysanthemums and smilax added to the attractiveness of the scene. The table, with its centerpiece, an immense wedding cake with wedding bell decoration, a profusion of cut flowers, festoons of smilax extending from the chandelier to the sides and its effective setting of dainty china, cut glass and silver, presented a lovely scene.

At the wedding banquet toasts to the bride and groom, gay repartee and pleasant social intercourse rounded out the long-to-be remembered occasion.

Many beautiful pieces of cut glass, silverware, hand-painted china and expensive furniture, pleasant messages from distant friends and best wishes from all present were offerings to the happy young couple.

Mr. and Mrs. Eckhardt will leave in a few days for Price, Utah, where Mr. Eckhardt will resume his duties for the railroad.

LADIES OF THE G. A. R.

The ladies of Abraham Lincoln circle No. 2 resumed their regular meetings last Thursday afternoon with a good attendance of members present. The guests of the circle were Mrs. Eleanor Burns, department president, and Mrs. E. M. Tobin, department secretary of Salt Lake. The president gave a very pleasing talk, which was also instructive. At the close of the meeting Mrs. Archie V. McIntosh invited the ladies to her home for an ice cream parlor for refreshments, which was heartily accepted by all present, thus ending a very pleasant afternoon.

DINNER PARTY.

Mrs. C. A. Hedquist and Mrs. Kitty A. Hines entertained at a prettily appointed dinner party on Monday in honor of Department Commander Thomas Lundy at their home in Provo. A beautiful centerpiece of white tea roses adorned the table, where covers were laid for Mr. and Mrs. G. Slater, Mr. and Mrs. Henry Burns, Mr. and Mrs. N. D. Corser, Mr. Miller, Mr. and Mrs. C. A. Hedquist and Mrs. Hines.
